SOFTWARE SERVICE & MAINTENANCE AGREEMENT

BETWEEN: Mango Season Labs Ltd (the "Provider")
AND: LakeTown (the "Client")

1. THE SCOPE OF DELIVERY

The Provider has delivered and deployed a full-stack software system for LakeTown. The system is comprised of 18 functional modules integrated into a NestJS API and Next.js frontend:

- Identity & Access: Auth, Users, Roles, ActivityLog.
- Inventory Pipeline: Branches, Products, Recipes, StockSessions, StockEntries, Suppliers, StockShare.
- Commercial Operations: Production (Recipe-based), Sales (Payments/Items), RestaurantOrders, Customers, Partners.
- Intelligence & Assets: Reports (Aggregated Data), Uploads.

2. INITIAL POST-DEPLOYMENT PHASE (THE "GRACE PERIOD")

The Provider shall provide an initial two (2) month period of service starting from the Effective Date of deployment.

- Complimentary Hosting: The Provider will cover all server and infrastructure costs for these 2 months.
- Complimentary Maintenance: The Provider will handle "Small Changes," defined as:
  - Minor UI adjustments and text changes.
  - Bug fixes for existing features within the 18 modules.
  - Configuration tweaks for the production environment.
- Exclusions: This phase does not include "Major Changes" (e.g., building a 19th module, re-architecting the database schema, or adding new business logic flows).

3. LONG-TERM SERVICE LEVEL AGREEMENT (SLA)

Upon completion of the 2-month Grace Period, the Client shall transition to a Monthly SLA Subscription. The following fees apply:

- Initial deployment fee: KSH 60,000 (one-time), for the delivered system.
- Monthly SLA fee: KSH 2,000 per month after the Grace Period.
- Included Services:
  - Server Costs: Continued provision and management of the production server environment.
  - General Maintenance: Ongoing uptime monitoring, security patching, and bug fixes to ensure system stability.

– Technical Support: Direct assistance for system-related issues during standard business hours.

- Billing Cycle: The flat fee is due on the [1st/5th] of every month.

4. ADDITIONAL WORKS & CHANGE ORDERS

Any work requested by LakeTown that falls outside General Maintenance will be billed separately. This includes:

- Development of entirely new modules or features.
- Integration with third-party APIs not included in the original 18 modules.
- On-site staff training or hardware procurement.
- Procedure: For any addition, Mango Season Labs Ltd will provide a quote; work begins only upon Client approval.

5. INTELLECTUAL PROPERTY & DATA

- Code Ownership: Upon full payment of deployment fees, LakeTown owns the application logic and database schema.
- Data Sovereignty: All data entered into the system (Sales, Customer, Stock records) is the sole property of LakeTown.
- Confidentiality: Mango Season Labs Ltd agrees to maintain strict confidentiality regarding LakeTown's business operations and proprietary data accessed during maintenance.

6. TERMINATION

Either party may terminate the Monthly SLA by providing 30 days' written notice.

- If LakeTown terminates, Mango Season Labs Ltd will facilitate the handover of the code and database to a server of LakeTown's choosing at a cost to be determined.
- Outstanding maintenance fees must be settled before the final handover.
